## Teacher V Student

Written by JSC

The JSC have organised 2 sport competitions between teachers and students. The first game was netball. It was great fun and everybody tried really hard. At the end

of the

game the

teachers

were too

strong for the students and

won the

match.

The second game was football. It was well organised and fairly played. This time the students proved too strong

for the

teachers!!

So the scores are level. The next game to be held in week 9 will be rounders. This will be the decider to see who is victorious overall. Good luck to both teams.
